WELCOME TO ELITE CAREER INSTITUTE OF TEXAS.
LET'S GET TO WORK.

OUR STORY

TEXAS TRAINED, CAREER READY

Elite Career Institute of Texas was built on a simple idea: skilled trades deserve serious training, without the four-year price tag or timeline. We're located in Stafford, Texas, just off US 59/I-69, and we exist to turn people who are mechanically inclined and ready to work into HVAC technicians employers want to hire.

35+ Years of Know-How, Built Into Every Class

The owners of Elite Career Institute of Texas bring more than 35 years of combined experience in vocational education. Our instructors have real hands-on HVAC careers behind them, not just classroom credentials. They know what the job actually demands, and they teach accordingly.

Why HVAC, Why Now

Houston's climate means HVAC systems run year-round, and that means steady demand for technicians who can install, maintain, diagnose, and repair the systems people depend on every day.

Experience the Difference

- **Personal Support** — Caring, committed instructors with you from day one to graduation.
- **Hands-On Training** — You'll learn on the same equipment and tools you'll use on the job, not just from a textbook.
- **Speed & Convenience** — A fast, focused path to a new career, with evening and weekend classes built around your schedule.
- **Honest Pricing** — A straightforward, affordable alternative to large national training chains, with a 15:1 student-to-teacher ratio.

“

EVERY SYSTEM YOU LEARN TO FIX TODAY IS A CAREER YOU’RE BUILDING FOR TOMORROW.

THE PROGRAM

ENTRY LEVEL HVAC-R TECHNICIAN PROGRAM

Our **Entry Level HVAC-R program is built to take you from no experience to job-ready in as little as 12 weeks.** You'll learn the technical and problem-solving skills the HVAC industry demands today, with hands-on training in installation, maintenance, troubleshooting, and repair.

WHAT YOU CAN LEARN:

- A/C Systems
- Heating Systems
- Heat Pumps
- Installation
- Maintenance
- Diagnostics
- Troubleshooting
- Testing Instruments
- Circuit Diagrams
- Circuit Boards
- P&T Charts
- Piping & Soldering
- Electrical Theory
- Wiring Safety
- Customer Service

EPA 608 CERTIFICATION

Our curriculum is designed to prepare you to sit for the EPA 608 Exam, a certification required for any technician who works with refrigerants in the United States. **It's one of the first things employers look for, and it's built into your training here.**

Wherever you want your HVAC career to go next, this program is your starting point.

ENROLLMENT & FINANCING

WE MAKE ENROLLMENT EASY

Tour Our Stafford Campus

See the classrooms and equipment for yourself, meet an instructor, and get a feel for our hands-on culture.

Complete Your Paperwork

Straightforward, with our team on hand for any questions.

Pick a Payment Plan

Choose the option that fits your budget and timeline.

Wait for Your Confirmation

Once your paperwork is submitted, our team will review it, confirm your acceptance, and reach out with your class start date and next steps.

Who Can Enroll

High school graduates and GED holders. No prior HVAC experience required. Whether you're starting your career or switching from another field, you're welcome here.

Flexible Payment Plan Options

We offer payment plans designed to fit a variety of budgets and lifestyles, so cost doesn't have to stand between you and a new career. Compared to years at a traditional college, a program built to get you hired is one of the most affordable paths into a stable, in-demand career.

Contact us to learn more about current program costs and which payment plan works best for you. Enrollment is ongoing, with new classes starting throughout the year.

SCHEDULE YOUR TOUR TODAY.

“

YOU DON’T NEED FOUR YEARS TO BUILD A FUTURE. YOU NEED THE RIGHT TRAINING AND THE WILL TO SHOW UP.

LIFE AT ELITE

REAL EQUIPMENT. REAL TRAINING. REAL CAREERS.

At Elite Career Institute of Texas, you won't spend your time sitting through lectures about HVAC. **You'll be in the lab, working on real systems, from early in your training.**

Built Around Your Schedule

Evening and weekend classes mean you don't have to put your current job or responsibilities on hold to start building your future.

A Supportive Environment

Our instructors and staff are invested in your success, not just for the 12 weeks you're in class, but as you step into your first HVAC job.

Where This Career Can Take You

Graduates of programs like ours go on to work in residential, commercial, and industrial HVAC roles — installing new systems, maintaining existing ones, and troubleshooting the problems that keep buildings comfortable and running. It's steady, hands-on work in an industry that isn't going anywhere.

FREQUENTLY ASKED QUESTIONS

Are there any prerequisites for enrollment?

No. If you meet our enrollment requirements, a high school diploma or GED, there's no additional prerequisite or work experience required to get started.

I already work in another trade. Can I still enroll?

Yes. We regularly train professionals from construction, electrical, and plumbing backgrounds who want to add HVAC to their skill set. It's a natural pairing that widens what you can offer on the job.

Can I keep my current job while I'm in the program?

Many of our students do. With evening and weekend class options, you can work toward your HVAC certification without putting your current paycheck on hold.

How do you help prepare me for employment after the program?

Our instructors bring real HVAC industry experience into the classroom, and our curriculum is built around the same skills you'll use on the job. We also prepare you for the EPA 608 Exam, which is one of the first things employers look for when hiring.
